

Sinclair Media is using the public airwaves to serve an influential bias to the public by airing an anti-Kerry documentary days before this year's presidential election. Sinclair is clearly abusing the rights to free airwaves by doing this; by not providing fair use, Sinclair is endangering true democracy in America and more importantly, not fulfilling their obligation to serve the public interest by doing so.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard and that companies like these need to be held accountable for their actions. Television undoubtedly holds immeasurable influence on the American public and should not be utilized, free of charge, to push any one person's particular agenda.

Thank you.
